

**Non-Toxic Germicidal
Zero Chemical
High Performance
Compact Disinfection**

Hermes UVC bridges high-performance disinfection with real-world practicality; perfect for both emergency vehicles and everyday shared spaces.

Maintaining hygiene in high-contact spaces like public transport, ride-sharing vehicles, and emergency service vehicles is a constant challenge, especially with growing concerns about infection control.

Effectively eliminates harmful microorganisms and pathogens in small enclosed areas by neutralizing bacteria, viruses, and fungi, preventing their reproduction and reducing the risk of disease transmission.

Fast & Efficient:

Disinfection is completed in minutes, making it ideal for high-use vehicles like buses and ambulances.

Minimizes Human Error:

Provides consistent, thorough surface treatment, ensuring high hygiene standards.

Versatile:

Suitable for various vehicle types, from taxis and buses to trains and aircraft.

Suggested uses:

- Small bathrooms
- Automobiles
- Mop buckets
- Rental cars
- Wheelchairs
- Desk and work spaces
- Emergency Service vehicles
- Toys/play-spaces
- changing tables.
